

*Embracing Children.*

*Inspiring Lives.*

**At Children's Home Society of Florida, we believe in empowering children and families to lead responsible, productive and meaningful lives.**

**Our myriad of services across our division and the state of Florida helps us pursue our dream of breaking the tragic cycle of abuse and neglect for more children, finding families for youth, and guiding teens and young parents toward paths filled with opportunities.**

## Joshua House

Located on 11 beautiful acres in Tampa, Joshua House provides group care and emergency shelter for up to 48 children and teens who have been removed from their homes after suffering abuse and/or neglect.

Nearly 1,400 youth have passed through Joshua House since it opened in 1992. But helping these children extends far beyond providing a safe bed for them to sleep in.

Our children at Joshua House have endured unspeakable traumas. As they find safety and stability, we help them begin the healing process so they can look toward healthier, brighter futures. In our nurturing environment, we offer a diverse range of activities to encourage personal development, therapeutic services provided by experienced therapists and counselors, assessments of educational needs, and tutoring.

With so many children receiving services each year, Joshua House is always in need of financial contributions and in-kind donations.

**There are so many ways you can help us turn lives around.**
